Testing Summary – Hospital Disinfectant

Hospital Disinfectant is a hospital-grade disinfectant product developed and manufactured by Dominant that has undergone extensive third-party testing to ensure it is effective against pathogens commonly encountered in healthcare facilities, which includes multi-resistant organisms. Hospital Disinfectant is listed on the Register of Therapeutic Goods as a Listed Disinfectant (ARTG 344070). For more detailed information, please refer to Table 1.

Organism	Testing	Year Completed
Pseudomonas Aeruginosa	TGA Disinfectant Test (Option A & B) AOAC Hard Surface Carrier Test	2017
Escherichia Coli	TGA Disinfectant Test (Option A & B) AOAC Hard Surface Carrier Test	2017
Proteus Vulgaris	TGA Disinfectant Test (Option A & B) AOAC Hard Surface Carrier Test	2017
