

FABRIC SOFTENER

→ DESCRIPTION

Softens fabrics, reduces static electricity and drying time, and leaves a bacteriostatic finish on linen.

→ BENEFITS

- Softens fabrics
- Reduces drying time and static electricity
- Makes ironing easier
- Leave bacteriostatic finish on linen
- Fresh and gentle waterlily fragrance
- Phosphate free – grey water can be used in gardens
- Septic Safe

→ APPLICATION

Fabric Softener is suitable for use in both commercial and domestic front and top loading washing machines.

→ DIRECTIONS FOR USE

Application	Dilution Rate mLs	Directions
Domestic Washing Machine	20-40mL depending on load size	Add Fabric Softener to the final rinse water
Commercial Washing Machine	25-40mL per 25kg If roller irons are being used, 60-70mL per 25kg	Add Fabric Softener to the final rinse water
Hand Washing	10-20mL	Add Fabric Softener to the final rinse water

Do not pour undiluted Fabric Softener directly onto clothes. If synthetic fibres or blends are causing static shock when pulling out of dryers, increase level of Fabric Softener.

If water is discoloured, for example when mains are being cleaned, discontinue use of Fabric Softener until water clears. Fabric softeners can pull discolouration out of water and on to fabrics.
